How to make Chandelier Earrings

Professional Tip: Confidence is a huge part of design. Once you are confident in your technical skills there's no limit on your designs.

Chandelier Earrings

There are many ways to take your basic earring skills and create impressive designs.

1. A simple way to enhance your earrings is to use large decorative jumpings to hang your beads from in combination with fancy earwires and headpins.
2. There are many Chandelier Earring parts that are available for you to add beads of your choice. Try adding more than one bead per loop. Another option is to hang beads from eye pins, creating a beaded chain look.
3. Chain is one of the most popular ways to create chandelier earrings. Your designs can range from the uncomplicated to the elaborate depending on how many beads you add to the chain.
4. Build up your wire skills and try to create your own shapes. Find new ways to work with your beads.
